

Cartobox

We started the business in 1997 as an advertising agency named Design Central providing services to Multi-National and local companies.

Over time we have gained experience in packaging design and packaging boxes production.

We established a factory in 10th of Ramadan city in 2003 to manufacture carton boxes named Cartobox.

In year 2006 we found a gap in the market regarding cardboard display stands manufacturing since this product requires expertise in customer service and design, whether industrial or graphic, as well as manufacturing and printing capabilities that are not available for many carton factories.

We have integrated the advertising agency with the carton factory and specialized in the cardboard display stands and we were leaders in that field. The beginning was with customers in the field of fast consumer goods as each product we design and manufacture is a success story we are proud of.

Now we have a large client base we have the honor to serve.

WE HAVE THE HONOR TO
COOPERATE WITH :
