# Join our network!

Trade is progressively picking up, but in order to keep afloat in a wavy post-COVID-19 economy, businesses and authorities will need to **cooperate more than ever**. Founded **42 years** ago **by and for** the Arab-Belgian-Luxembourg **business community**, the ABLCC is a **non-profit** organization that works on a daily basis with **trade agencies**, **embassies** and a dense network of **local chambers**. Members benefit from priority and extensive **trade support** and **special visibility**. They are part of a **trusted network** of relevant business actors they can **partner** with, whether they are from Europe or the MENA. Membership also allows you to **connect with high-level profiles and potential business partners** from both private and public sectors. Notably, for those who regularly legalize documents and/or attends our events, membership is a **game changer in terms of costs**.

## What we do?

We regularly organize **business events and trade missions** with the top of the business and diplomatic community. We also provide companies with **business services** (legalization, trade support, translation, visa services,...). Nonetheless, our main priority remains to **support our Members** from Europe and the Arab world in **doing business with each other** and **facilitate international business development**.

## What is the plus-value for you?

- ☒ **Visibility** (business directory, newsletter)
- ☒ **Promotion** of your commercial interests
- ☒ Strategic **Matchmaking & Linkage**
- ☒ International Business **Support & Facilitation**
- ☒ **Increased trust** when dealing with counterparts
- ☒ **Free or discounted** events and services

*Membership fees start from 400 € / year*

# Enabling bright outcomes

Imagine a way to see, sense, and share the intangible. It's what happens when big data becomes knowledge. When images become insight. And when experiences come to life.

That's what Barco is all about.

In a world where data and rich content are expanding exponentially, we empower you with **impressive visualization and innovative collaboration solutions** to help you make meaningful connections.

For us, it's you – the customer – that counts. We help you achieve your goals, whether it's protecting the health and safety of millions, creating magical moments, or supporting people to work smarter together.

We help you get the most out of what you do every day. So together, we create brighter outcomes, around the world.

For more information, visit us on [www.barco.com](http://www.barco.com), follow us on Twitter (@Barco), LinkedIn (Barco), YouTube (BarcoTV), or like us on Facebook (Barco).

# NEWS

## GLOBAL GATEWAY EUROPE

At the end of 2021, **the European Commission** and **the High Representative for Foreign Affairs and Security Policy** launched **the Global Gateway**: a new European strategy to boost smart, clean, and secure investments in the digital, energy, and transport sectors and to strengthen health, education, and research systems across the world. Furthermore, does it aim to connect goods, people, and services around the world in a sustainable way.

The focus of the global initiative lays on **physical infrastructure**, such as fibre optic cables, transport corridors, and clean power transmission lines. Some of the key elements that are incorporated are: democratic values and high standards, good governance and transparency, equal partnerships, green and clean, and security focused.

The emergence of Covid-19 has proven to show how interconnected the world is, which is why the EU wanted to involve actors on a global level. By investing in key sectors around the globe and supporting private investments, the EU is looking to build strong connections without dependency on one another.

Moreover, with the Global Gateway the EU wants to offer **an alternative to China's Belt and Road Initiative** – the massive, geopolitically influential network of infrastructure and transport investments that Beijing uses to link its exporters to Western markets.

The main goal of the new European strategy is to mobilize around **€300 billion in investments between the years of 2021 and 2027** to underpin a lasting and sustainable global recovery.

The innovative strategy will be delivered through a **Team Europe approach**, which brings together the EU institutions, the 27 EU Member States, and European financial and development institutions, such as the European Investment Bank (EIB) and the European Bank for Reconstruction and Development (EBRD), along with the private sector and civil society.

The first targets of this investment will be Europe's neighbouring countries and will create sustainable links between the EU and those countries without creating an unsustainable level of debt. The President of the European Commission, Ursula von der Leyen, said that no partner will be excluded. However, only smart investments, the ones that respect the highest social and environmental standards will be considered and supported.

## THE KING AND QUEEN OF BELGIUM VISIT OMAN AND THE UAE

From the 2nd until the 5th of February 2022, the King of Belgium; King Philippe, accompanied by his wife; Queen Mathilde, and the official Belgian delegation, visited both **the Sultanate of Oman** and **the United Arab Emirates**.

Firstly, the royal couple visited Oman, where they held stops in the cities of Muscat and Duqm. This visit was focused on **the renewable energy transition** happening in Oman and on **promoting Belgian-Omani economic and investment cooperation**, particularly in the area of **green and clean energy**.

*Picture from left to right: the Belgian Queen Mathilde, the Belgian King Philippe, and the Omani Sultan Haitham.*

It was the first visit outside of Europe for the Belgian King since the beginning of the Corona pandemic. King Philippe was also the first European leader to be received by the Sultan of Oman; Sultan Haitham.

One of the first activities in Oman included the inauguration of **the Port of Duqm**, which was completed in collaboration with **the Port of Antwerp**. The new port was built to accommodate imports and exports to and from Oman to an ever growing international market. Another aim of the "**Hyport Duqm**" project is to produce green hydrogen, which is implemented by Oker in partnership with the Belgian company **DEME** (a member of the Board of Directors of the ABLCC). In addition, a second visit was made to **Hyport**, a newly built **power plant** capable of producing **hydrogen**; a valid, sustainable, and green alternative to traditional energy sources.

The Port of Duqm and Hyport are both projects aiming to transform the Duqm Special Economic Zone into a global center for the production of green and environmentally friendly hydrogen.

After Oman, the Belgian royalties and delegation visited the United Arab Emirates. One of their stops there was the Belgian pavilion at **World Expo in Dubai**.

## AFRICA & EUROPE

On 17 and 18 February 2022, the heads of state/government of the member states of **the African Union (AU)** and **the European Union (EU)** came together for **the 6th EU-AU Summit**. The meeting was co-chaired by the President of the European Council; **Charles Michel**, and the

President of Senegal and the Chairperson of the AU; **Macky Sall**.

*Picture from left to right: President of the European Commission Ursula von der Leyen, Senegal's President and AU Chair Macky Sall, President of the European Council Charles Michel and France's President Emmanuel Macron at the opening session of the summit.*

In this meeting, African and European leaders agreed on a **Joint Vision for a renewed partnership**, aimed to be achieved around **the year 2030**. The general cornerstones of this renewed partnership include solidarity, security, peace, sustained economic development, and prosperity for both the citizens of the African and European Union.

More specifically this will involve:

- An Africa-Europe **investment package of €150 billion** over the next 7 years, which will help build more diversified, inclusive, sustainable, and resilient economies.
- **The provision of 450 million vaccine** doses to Africa by mid-2022, which is to ensure fair and equitable access to vaccines.
- Enhanced **peace and security cooperation**.
- An enhanced and reciprocated **migration and mobility partnership**, done through joint action and capacity-building.
- A commitment to **multilateralism**.

Even though the Joint Vision represents an ambitious plan and contains some impressive commitments, many believe that it falls short on specific African demands relating to gas and fossil fuels, the waiving of intellectual property rights on Covid-19 vaccines, the reallocation of IMF special drawing rights (SDRs), and migration.

You can find an **Infographic** of the "Joint Vision for 2030" here: <https://www.consilium.europa.eu/en/infographics/africa-and-europe-a-joint-vision-for-2030/>

## EU & GCC: TO ENHANCE AND DEEPEN THEIR RELATIONSHIP

*Picture from left to right: Saudi Foreign Minister and GCC chair Prince Faisal bin Farhan Al Saud and High Representative of the EU Josep Borell.*

On Monday 21 February 2022, **the foreign ministers from EU member states**, headed by the High Representative of the EU; **Josep Borrell**, and their counterparts from **the Gulf Cooperation Council (GCC)** countries, chaired by the Saudi Foreign Minister; **Prince Faisal bin Farhan Al Saud**, came together in a **Joint Council and Ministerial Meeting** held in **Brussels**. Here the GCC and the EU called for closer cooperation and underlined the importance of strengthening their relations.

In a statement Borell said: "We are the first investor in the region and second trade partner, but politically we are not on the same level. Our relations have to be enhanced and I think this is the good moment to do so. This is going to be the first step for stronger and deeper relations."

During the Council, the EU and GCC ministers stressed the importance of continuing to strengthen the relations between both sides. In light of recent regional challenges, the ministers saw it necessary to create a strong and effective base for **regional and international security and stability**. In particular, they agreed on the importance of strengthening GCC-EU relations in a **wide range of areas**, including political dialogue, regional security, counterterrorism, trade and investment, energy, climate change, education, health, cybersecurity, and strengthening cooperation in international forums. Moreover, several humanitarian issues, such as the situation in Yemen, the ongoing war in Syria, and the crises in Afghanistan and Lebanon, were discussed.

Finally, the ministers agreed to hold their next meeting in 2023 in the GCC region.

## EMIRATES

Emirates operates a modern fleet of Boeing 777 and Airbus A380 aircraft and is currently flying to a network of more than 120 destinations across six continents, as it rebuilds its network safely and appropriately following the impact of the Covid-19 pandemic.

## CHAUFFEUR-DRIVE

When flying First Class or Business Class we'll drive you to and from the airport. We're offering Chauffeur-drive in nearly all our current destinations. Have a look at our [updated routes](#).

From Brussels National Airport, the covered distance is 70km.

Excess mileage is charged at EUR 2 extra per km. For addresses in the Grand Duchy of Luxembourg, the service is complimentary.

## INFLIGHT ENTERTAINMENT

Emirates offers more than 4,500 channels of entertainment on ice (Information Communication Entertainment).

2021 was another multi award-winning year for ice, where customers voted Emirates 'Best Inflight Entertainment' at the 2022 APEX Passenger Choice Awards®. Emirates has won Skytrax World's Best Inflight Entertainment accolade every year since 2005. Emirates continually updates its inflight content, adding hundreds of movies, TV shows, podcasts and music channels each month to its extensive entertainment library on ice.

## GAME CHANGER

Emirates' products and services across cabin classes are continually improved and enhanced following feedback from customers.

As you know, Emirates is the only airline offering a First Class product ex-Brussels. Our new First Class cabin features six private suites laid out in a 1-1-1 layout, compared to the eight private suites in a 1-2-1 layout on its existing 777 fleet.

## COVID-19 MEDICAL TRAVEL INSURANCE\*

Our COVID-19 medical travel insurance automatically applies to your ticket when you purchase flights until 31 March 2022\*\*. The ticket must have 176 as the first-three digits of the ticket number. There are no forms to complete, simply purchase your flights either on [emirates.com](#), through the contact centres, retail offices, or with your travel agent.

Your coverage is valid for the duration of your return trip (or up to 31 days after your departure date from your original country of departure, whichever is earlier).

If you're flying on a one way trip, the coverage ends 31 days after you arrive at your final overseas destination.

[More information here.](#)

The Emirates logo, featuring the word 'Emirates' in a stylized white font on a red background, with the Arabic word 'إمارة' (Emarat) above it.

\*Expenses require pre approval. Subject to terms and conditions.

\*\*Emirates reserves the right to extend or end the programme at any time.

# ABLCC KEY ACTIVITIES

# WEBINAR | "SAUDI ARABIA, A LAND OF INFINITE OPPORTUNITIES AND BOLD INITIATIVES"

9 NOVEMBER 2021

On 9 November 2021, the **Arab-Belgian-Luxembourg Chamber of Commerce**, in close collaboration with the **Embassy of the Kingdom of Saudi Arabia in Brussels** organized a high-level webinar called: "**Saudi Arabia, A Land of Infinite Opportunities and Bold Initiatives**".

This webinar represented a unique opportunity for participants to discover the Saudi market and its long-term vision as a strategic partner in the Arab World. It enabled more than 130 participants - be they companies, associations, or businessmen - to get to know more about key investment sectors and opportunities in the Kingdom.

But why focus on Saudi Arabia?

As a member of the G20, the Gulf Cooperation Council, and countless of other important Union's, Saudi Arabia is undeniably

a partner to be cherished. Furthermore, is the Saudi Kingdom one of the fastest growing economies in the world, therefore offering infinite business opportunities and many bold initiatives for investors.

By the end of this year, Saudi Arabia's GDP is expected to reach 790 billion USD and its economy is expected to expand 7.7 per cent now the coronavirus-related uncertainty that marked the last two years recedes. Even more impressive is the oil sector's GDP, which is projected to expand 15.5 per cent a year starting from 2022. However, its position among the world's largest exporters of oil and gas has tended to overshadow the Kingdom's increasingly diversified economic sectors such as infrastructure, healthcare, energy, petrochemicals, logistics, and education to only name a few of them. Consequently, there is no need to feel that the Saudi Kingdom should be considered the

exclusive playground of large multinationals active in the oil sector. To the contrary, Belgian and Luxembourg SMEs should feel at ease in joining the game.

Last but not least, is the country making a giant leap with the digitalization of its public services and the launch of gigantic infrastructure projects. This transformation is part of the "Saudi Vision 2030"-roadmap, a social and economic development plan which aims to challenge the foundations of the traditional Saudi economy and pushes investment in innovative sectors. The Saudi market is therefore, for the first time in its history, experiencing a period of unprecedented socio-economic changes and diversification to free itself from its dependence on oil.

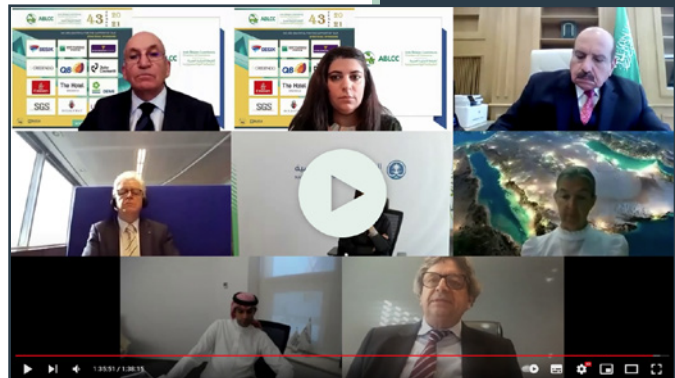

It is because of these reasons that the interest of companies in the Saudi market is growing rapidly. This was clearly showcased by our webinar and all of its participants.

In this webinar we were pleased to welcome the Ambassador of Saudi Arabia to Belgium and Luxembourg, **His Excellency Dr. Khalid Al-Jindan** and the Ambassador of Belgium to Saudi Arabia, **Her Excellency Mrs. Dominique Mineur**. Amongst some of the other important speakers were **Mr. Tariq Al Haidri**, Vice Chairman of the Federation of Saudi Chambers, and **Mr. René Branders**, Chairman of the Federation of Belgian Chambers.

The second part of the webinar consisted of two presentations. The first one, given by **Dr. Eiman Al-mutairi**,

CEO of the National Competitiveness Center and Saudi Business Center, focused on the "Vision 2030" development plan. The second presentation, given by **Mr. Khalid Al-Sheddi**, Investor Advisory & Relations Executive at the Saudi Ministry, gave an overview of the Mission of the Ministry of Investment in Saudi Arabia (MISA). This mission gave rise to the facilitation of investment procedures and fostered an investment ecosystem as well as a strengthened communication with investors, to help them find their way and succeed in the Saudi market.

You can watch more about the webinar here:  
<https://youtu.be/v05vHCVPiog?t=21>

# WEBINAR | "DOING BUSINESS WITH TUNISIA"

## 16 DECEMBER 2021

On 16 December 2021, the **Arab-Belgian-Luxembourg Chamber of Commerce**, in close collaboration with the **Embassy of the Republic of Tunisia in Brussels**, held a webinar called: **"Doing Business with Tunisia"**.

This webinar represented a unique opportunity for participants to discover the Tunisian market, its export power as well as its untapped potential. It enabled more than 60 participants - be they companies, associations, or businessmen - to get to know more about key investment sectors and opportunities in the Republic.

But why focus on Tunisia?

In recent years, the country has become an ideal place and high-quality environment for European investments, despite the external difficulties the country has suffered in the past decade. This is because the Tunisian economy is becoming increasingly

diversified, resilient, and flexible, as well as more open towards the world. It also relies on high-quality human resources and competitiveness. Moreover, its economy is known for having a good capacity to adapt quickly to circumstances and as a safe hub for companies to invest in. Besides that, Tunisia is also very strategically located, in between the crossroads of Africa, Europe, and the Middle East.

It is because of these reasons that the interest of companies in the Tunisian market is growing rapidly. This was clearly showcased by our webinar and all of its participants.

In the webinar, we were pleased to welcome the Ambassador of Tunisia in Brussels, **His Excellency Mr. Nabil Ammar**, and the Ambassador of Belgium in Tunis, **His Excellency Mr. Christophe de Bassompierre**. Amongst some of the other important speakers were **Mr. Mounir Mouakhar**, President of the Chamber of

Commerce and Industry of Tunisia (CCIT), **Mr. Abdelbasset Ghanmi**, Director-General of Foreign Investment Promotion Agency (FIPA) in Tunisia, and **Mr. Imed Hfayeth**, Director of the Center for Export Promotion (CEPEX) in Tunisia.

You can watch more about the webinar here:  
<https://www.youtube.com/watch?v=Z-T4CUnepaw>

## BUSINESS MEETING BELGO-LUXEMBOURG ECONOMIC DELEGATION 9 MARCH 2022

The Ambassador of the Kingdom of Saudi Arabia to Belgium, **H.E. Dr. Khalid AL-Jindan**, hosted a lunch at the Embassy Head Quarters in Brussels on **the 9th of March 2022**, in honor of the **Belgo-Luxembourg Economic Delegation**, which held 90 participants and parted to Saudi Arabia on 12 March 2022.

Five participants represented the delegation alongside the Secretary General of the ABLCC, Qaisar Hijazin, President of the Belgian Chambers, René Branders, and members of the Saudi Ministry of Foreign Affairs.

# MULTI-SECTORAL ECONOMIC MISSION TO SAUDI ARABIA | 11-18 MARCH 2022

19

In the period of **11-18 March 2022**, the **Arab-Belgian-Luxembourg Chamber of Commerce**, the **Walloon Agency for Export and Foreign Investment (AWEX)**, and the **Chamber of Commerce of Luxembourg (CCLU)** had the honor to organize a **Multisectoral Economic Mission to Saudi Arabia**, together with the support of the **Embassy of Belgium in Riyadh**.

This mission, located in the cities of Riyadh, Jeddah and Dammam, was a great opportunity for the participating companies to seize the exceptional and unique chances offered by the **Saudi "Vision 2030" development plan**, while also taking advantage of the network, expertise and

logistical organization presented by the **ABLCC**, **AWEX** and the **CCLU**.

In order to take full advantage of the potential presented by the Saudi market, the economic mission was focused exclusively on the following sectors: **Health, Energy, Environment, Entertainment, Agri-Food, Construction, and Transport**.

On Monday **14 March 2022**, the **Federation of Saudi Chambers** and the **Arab-Belgian-Luxembourg Chamber of Commerce** signed a **memorandum of understanding** to establish the **Saudi-Belgian-Luxembourg Business Council** to promote and expand intra-regional trade and boost investment

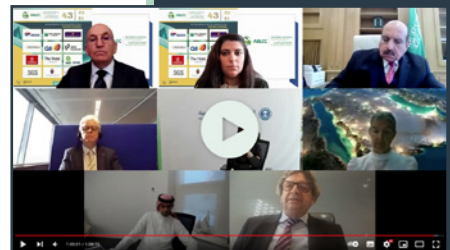

cooperation between the three countries. The council, which was announced during **the Saudi-Belgian-Luxembourgian Business Forum** in Riyadh, carries out commercial and promotional activities in the fields of trade, investment, and technology transfer, with a focus on the targeted sectors. It also provides Saudi, Belgian, and Luxembourgian businesspeople with a platform to present themselves, promote their businesses, and build commercial relationships.

More information about what took place during the Mission will be published soon. If you would like to know more about **opportunities in Saudi Arabia** in the meantime, feel free to watch **the ABLCC webinar** at this link: <https://www.youtube.com/watch?v=63isegcWyXY>

On the same day, a Belgian-Luxembourg delegation visited **the Saline Water Conversion Corporation (SWCC)** with the aim to enhance aspects of cooperation in energy and environment, discuss current and future opportunities between the two sides, and discuss projects and existing needs. Additionally, they became acquainted with the investment opportunities of SWCC and learned about its expertise and human, technical, and engineering capabilities. The Belgian delegation was headed by **Trade Adviser at the Belgian Embassy in Saudi Arabia, Adrien Lacroix**, with the participation of Belgian and Luxembourg companies.

Dubai – LA MER

New Port project, Qatar

Suez Canal, Egypt

Abu Dhabi – SARB Islands

DEME is a world leader in the highly specialised fields of dredging and land reclamation, solutions for the offshore energy market, environmental and infra-marine works. Thanks to our multi-disciplinary approach, DEME has become a true, global solutions provider.

- New Port Project, Qatar
- Deepening & Widening Suez Canal, Egypt

# BUSINESS WEBINAR | ENTREPRENEURIAL OPPORTUNITIES FOR BUSINESSWOMEN IN THE UAE

31 MARCH 2022

22

On the 31st of March, the Arab-Belgian-Luxembourg Chamber of Commerce was honored to host an interesting webinar in collaboration with Ras Al Khaimah Economic Zone (RAKEZ). The topic of the webinar focused on exploring the many entrepreneurial opportunities that are available to businesswomen in the United Arab Emirates. The webinar started off with a small introduction by Mr. Shaker, Sales Manager of RAKEZ, and followed with two presentations given by Mr. Hijazin, Secretary-General of the ABLCC, and Mrs. Choukri, Sales Manager of RAKEZ.

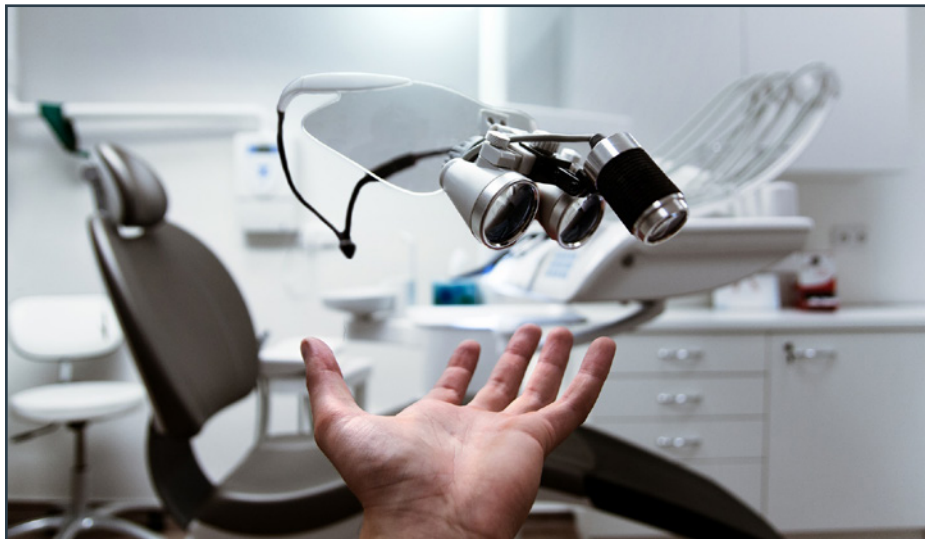

For more information about this webinar, please contact us or the following addresses:

- **Email:** [j.choukri@rakez.com](mailto:j.choukri@rakez.com)
- **Tel.:** +49 221 570 865 12

# **FUTURE ACTIVITIES OF THE ABLCC**

# WEBINAR “MEDICAL TECHNOLOGIES SECTOR”

24

The Arab-Belgian-Luxembourg Chamber of Commerce and the Belgian Foreign Trade Agency are pleased to announce a webinar that will be held soon concerning the topic of **Medical Technologies** in Belgium and the Arab World.

In this webinar we have invited **3 Belgian speakers** of different companies, representing the Walloon, Flemish and Brussels region, alongside **3 Arab speakers** of different companies to give a small speech

about the Medical Technologies Sector. More information about the speakers will be announced soon.

Moreover, will **the Economic Attachés** of the Arab Embassies in Brussels alongside other businessmen and women interested in the Healthcare sector be attending this webinar.

**MORE INFO ABOUT  
THE WEBINAR**

***More information about the webinar and registration will be announced soon!***

# FAIRS, CONFERENCES & EXHIBITIONS

## ALGERIAN VIRTUAL WASTE EXHIBITION

5-7 JUNE 2022

In the period of **5,6 & 7 June 2022** the 3rd edition of **the Algerian Waste Exhibition (AVWE)** will take place online. This unique,

digital exhibition focuses on the promotion of **investment in waste** and represents a new vision of linking waste management actors, whether these are Algerians or foreigners.

The AVWE represents a real opportunity for international visibility in the sense that visitors from all over the world can access the fair without travelling or costs.

A series of conferences led by national and international experts will be broadcasted according to a pre-established program. A live conference is also scheduled on the last day of the exhibition. Conferences and live performances will remain available on the YouTube channel after the exhibition.

# INTERNATIONAL FOOD AND TECHNOLOGY EXPO JORDAN (INFTEXPO)

9-12 JUNE 2022

The International Food and Technology Expo 2022 will be held from **the 9th of June until the 12th of June 2022** in **Amman**, the capital city of **the Hashemite Kingdom of Jordan**. More specifically, will it be located at **Mecca Mall in Amman**. The exposition will be the first forum of its kind established for all professionals specialized in industry, trade, food and beverages in Jordan and the Middle East.

Jordan has a sound and resilient economy which gives it the capability of adapting quickly to local and regional shocks and to achieve growth at a stable and sustainable rate. Jordan is also a member of the World Trade Organization, an important

regional center, and one of the most desirable investment locations in the region.

The food, supplies, agricultural and livestock industries are among the most important sectors in Jordan. Moreover, are these industries rapidly expanding and becoming more and more modernized. For example, the food industry in the Kingdom is ranked second in terms of quality and is able to reach

most of the markets in neighbouring countries.

The goal of INFTEXPO 2022 is **to bring together both exhibitors and consumers** and give them the chance to explore new food and beverage products from all

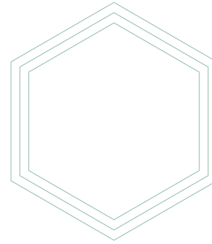

around the globe or to display their own products in local and regional markets, expand their network, meet other businessmen, and gain new customers.

With the organization of Pulse Media and the cooperation of the Syndicate of Food Traders in Jordan, there will be attending around 250 leading companies, both local as international.

**The targeted visitors** of the INFTEXPO 2022 are as follows:

- Executives in industrial companies for packaging, machinery, and food and beverages.
- Importers, distributors, and wholesalers of food and beverages.
- Professionals, consultants, government institutors, trade unions, and free zones.
- Owners of transport, refrigeration, and storage companies.
- Specialists in the manufacturing and trade of halal products.
- Envoys and representatives of commercial attachés of embassies in Jordan.
- Purchasing managers of supermarkets, groceries, wholesale and retail stores.

**MORE INFO ABOUT  
THE INFTEXPO**

## UPCOMING IRAQI EXHIBITIONS IN 2022

The Arab-Belgian-Luxembourg Chamber of Commerce and the Embassy of the Republic of Iraq in Brussels have the pleasure to announce several exhibitions & conferences that will take place in Iraq in the following months of 2022.

**The Fifth Iraqi Tourism Forum** will be held in the period of **26-28 March 2022** and will take place in the city of **Baghdad**, more specifically at the Baghdad International Fair Ground. It is organized by **the Diamond Vision Company for General Contracting and Organizing International Exhibitions** and **the General Company for Iraqi Fairs and Commercial Services**.

**For more information, contact:**

- Email: [Almassaliqtf@gmail.com](mailto:Almassaliqtf@gmail.com)
- Address: Outer Karrada Neighborhood – Baghdad, Iraq
- Tel.: +964 773 777 6030/ +964 773 777 6040

**The Baghdad International Book Fair** will be held in the period of **11-22 May 2022** and will take place in the city of **Baghdad**, more specifically at the Baghdad International Fair Ground.
